LITTLE ITEMS OF LOCAL INTEREST

Mr. Hoover, who has been in the C.P.R. depot here for some time, left Saturday for Strathmore. Mr. Korms of Maple Creek arrived Monday to fill the vacancy here.

Mrs. Buffan and young son arrived home from Edmonton on Saturday.

Miss Connolly left on Friday for her home in Chesley, Ont., where her mother is reported to be quite ill. Mrs. G. Peters will fill the vacancy, which Miss Connolly leaves in the local school staff, for the remainder of the term.

Mrs. H. Willson spent the week end in Calgary, returning Monday.

E. Hester has purchased a new Chrysler coach from Olive Bros. garage.

FOR SALE—All kinds of little pigs. Apply E. Spry, 9 miles north Carbon.

Three Hills is forming a golf club this year. They have already made arrangements for the site.

S. N. Wright and Jas. McLeod left on Monday for Edmonton as delegates to discuss the building of a new public highway which may connect with Carbon.

Swalwell chess players visited the Carbon club last Friday evening in the persons of Messrs. Longstaff, Duytman and Johnstone. A very keenly contested match between Mr. Longstaff and Mr. Braisher resulted in a draw by stalemate. Mr. Duytman won from Mr. Bitch and lost to Mr. English. Mr. Johnstone and Mr. Roy English played several practice games.

Ed. Kunder, who has been working for Jim Gordon, was hurt on Monday, when the horse which he was riding rolled over, crushing him about the hips. He was taken to Calgary on Tuesday, where an X-ray will be taken to determine the seriousness of the accident.

Mr. McLintock and Mr. Nichol, soloist, who are in the employ of the United church and who have held revival services here for the past ten days, left today after a successful mission here.

GOLF NOTES

Wm. Reid has been given the contract for the putting in shape of

the Carbon Golf Course for the season. He commenced work some time ago and he now has the greens skinned to the full size of the fence that surrounds each green and the tees filled in with clay, which have yet to be leveled off. If fine weather continues now it will only be a matter of another few days before the sanding and oiling of the greens will be finished and then the course will be in pretty fair shape for the rest of the season.

Swalwell

Miss M. Standie is a visitor to our town for a few days.

A very successful dance was held in the Tricker hall on Friday last, dancers from all the surrounding towns turning out in full force.

Mrs. Bert Tricker was a visitor to our neighboring town of Three Hills during the week.

Rumour hath it that the Pool are

building a new elevator and a site has been staked out adjoining the loading platform and we understand that a crew of sixteen men is enroute ready to start on the building.

Services will be held on Sunday morning at the Union church, Swalwell, in the afternoon at Twining, and in the evening at Grainer. Mr. Johnstone will conduct all three services.

Alterations and additions are being carried out at the central telephone and at the International Harvester Co's agency.

The Junior baseball team that went over to Rockyford to play a junior team there last evening, were defeated in their game, the score being 14 to 4. A return game will be played here in about two weeks time.

On To The North!

The development of Canada is entering, in fact has already entered a new phase and one which holds promise of adding enormously to the population, wealth, and economic strength of the Dominion. In all the provinces, with the exception of the Maritimes, the attention of government and people are turned northwards.

The history of Canadian growth during the first half century of Confederation records development upon east and west lines, beginning with the acquisition by the newly born Dominion of the Hudson's Bay Co. lands of the west and the building of the Canadian Pacific Railway; then came the construction of the Canadian Northern; and finally the projection of the National Trans-continental and Grand Trunk Pacific across the continent. Practically all traffic moved east and west, and in these western provinces a long roundabout journey was frequently necessary in order to travel from one place to another only a comparatively short distance apart on a north and south line.

As a result of this early and quite natural programme of development, Canada became as a country, so far as settlement and trade was concerned, a narrow strip stretching all the way from the Atlantic to the Pacific, but consisting of fewer people than are to be found in European countries which in area are smaller than Canadian provinces. Canada had length but it lacked depth, a condition which made for weakness as a national unit because of the great distances separating the people and leading to a too great diversity of interests, a lack of knowledge of the needs and problems of the different sections. Maritimes, Ontario and Quebec, the Prairie West, the Pacific slope, a resultant sectional rather than a national viewpoint. Always there existed the possibility of this thin thread snapping at some point.

It is, therefore, a matter of national satisfaction that Canada is now on the threshold of its second great development, a development northwards which will give the Dominion what it has hitherto lacked, depth as well as length. From all quarters, governmental, financial, manufacturing, comes the confident prediction that the next two or three decades will witness a complete transformation in this respect, and hardly a week passes that some new enterprise involving northern development is not reported.

Development works engaged by Canadian, British and United States capital and involving an investment of close upon one billion dollars, are under way in Quebec which will result in the establishment of great industrial plants, the employment of tens of thousands of men, the creation of new cities and towns, and an enormous expansion in the trade of the Dominion. These are practically all to the north of present settled areas.

In Ontario, the Provincial Government has decided to push construction of their railway through to James Bay, while throughout both old and new mining areas of Northern Ontario unprecedented activity in prospecting and development is in progress.

Manitoba has awakened to the potentialities of its vast northern territory and, as in Ontario and Quebec, the eyes and energies of the people are being focussed on mineral and water power development there with all that this must mean in industrial expansion. The business men of Winnipeg realize they can no longer depend for future growth upon being simply a wholesale and distributing centre for the west.

The age-old demand of the Prairie West for an outlet on Hudson Bay is at last being met by a northward nation and the last section to be built will, before many months, be completed. The latest discoveries in science and invention are being employed to expedite this work. Airplanes have for weeks been carrying men and supplies from the end of steel to Churchill; other airplanes will patrol the Hudson Straits; airplanes are being employed in survey work in northern Saskatchewan, as well as in northern Ontario. In pocket branch lines of railways are to be built in northern Saskatchewan to connect existing railways with the road to the Bay, while the Saskatchewan Government has appointed a commission to make expert inquiry into the whole subject of power development within the Province.

Alberta has pushed railways well into the north of that Province, and it is now known there exists a wealth of oil, mineral and other resources in those northern stretches, as well as vast tracts of fertile lands suitable for agriculture. Investigation is now to be made of the most suitable route for a railway from northern Alberta through British Columbia to the Pacific coast.

A Confederation Prize For Literature

Recognition For the Most Outstanding Book of the Year

A Confederation Prize for Literature, to be awarded annually to the author of the most outstanding Canadian Book of the year, has been suggested by the Canadian Authors' Association in connection with the celebration of Canada's sixtieth birthday.

The National Executive of the Authors' Association by a unanimous vote has memorialized the Prime Minister, suggesting the setting aside of one tenth of the \$250,000 Diamond Jubilee Fund to endow in perpetuity such an annual prize for the encouragement of Canadian literature.

VERY HARD LARGE PIMPLES

Spread Over Face and Hands. Cuticura Heals.

"My trouble began with a few pimples on my face and hands and soon spread all over them. The pimples were very hard, large and red, and festered and scaled over. They itched and burned so that I scratched them, which caused eruptions. My face was disfigured, and I could not put my hands in water and could hardly do my work.

"A friend advised me to try Cuticura Soap and Ointment so I purchased some, and in about two months I was completely healed."

Signed: Miss Jennie Ducharme, 431 Giroux St., Norwood, Man.

Cuticura Soap, Ointment and Talcum are all you need for everyday toilet and nursery purposes.

Sample Each Free by Mail. Address Canadian Cuticura Soap Co., Montreal, P. O. Box 500. Cuticura Soap and Ointment. Cuticura Shaving Stick 25c.

Husbands Desert Wives

Pitiable Suffering Caused in Many Cases by These Desertions

The Montreal Star says editorially: "Pitiable suffering is caused by the tragedy of husbands deserting their wives and children. There has been a marked increase of this cruel conduct for some years past. Statistics compiled from court records, to our own city, demonstrate the sorrowful fact that fully 23 per cent. of the children placed in institutions of all kinds, and who are practically supported on charity, are 'inconcents' who have been deserted by their fathers. And, think of it, in 21 per cent. of these desertion cases the mother was left ill. Here we have brutal cruelty on the part of husband and father."

A VERY RELIABLE HOME TREATMENT

How Weak, Run-Down People Can Obtain Relief

Among the many remedies offered for the maintenance or restoration of health and strength, there is none can compare with Dr. Williams' Pink Pills. Most ailments are due to poor, thin blood. Dr. Williams' Pink Pills have a specific action on the blood, making it rich, red and pure. Through this richer blood the tissues of the body are better nourished, and the functions of the body better performed. Anæmic sufferers, weak, languid and nervous people speedily find new health and strength through the use of this medicine. This was the experience of Mrs. John Armour, South Mono-ghan, Ont., who says: "I am one of the many thousands who have regained health through the use of Dr. Williams' Pink Pills, and I take this opportunity of saying a word in praise of this splendid medicine. Before beginning the use of this medicine I was pale and badly run down. I found it difficult to do my house-work, and was tired and breathless at the least exertion. I had tried several medicines without benefit, and finally decided to try Dr. Williams' pink Pills. Soon I began to feel better, sleep better, eat better, and found my weight increasing. In a word I felt like a new person. I have since recommended the pills to others who have taken them with equally good results."

Try Dr. Williams' Pink Pills for anæmia, rheumatism, neuralgia, neuritis. Take them as a tonic. If you are not in the best physical condition and cultivate a resistance that will keep you well and strong. Get a box from the nearest drug store and begin this treatment now.

The pills are sold by all medicine dealers or will be sent by mail at 5¢ a box by writing The Dr. Williams' Medicine Co., Brockville, Ont.

The Swiss Industries Fair, the origin of which dates back to the middle Ages, will be held at Basel this year, April 2 to 12.

Strangled with Asthma is the only expression that seems to convey what is endured from an attack of this trouble. The relief from Dr. J. D. Kellogg's Asthma Remedy is beyond measure. Where all was suffering there comes comfort and rest. Breathing becomes normal and the bronchial tubes completely cleared. This unequalled remedy is worth many times its price to all who use it.

Primitive Russians place a certain cut of character in the hands of dead persons, to be given to Saint Peter at the gates of Heaven.

Ready-made Medicine. You need no physician for ordinary ills when you have at hand a bottle of Dr. Thomas' Electric Oil. For coughs, colds, sore throat, bronchial troubles, it is invaluable for soaks, burns, bruises, sprains, it is unsurpassed; while for cuts, sores and the like it is an unquestionable healer. It needs no testimonial other than the use, and that will satisfy anyone as to its effectiveness.

More mineral discoveries of importance have lately been made in the Portland canal area, Prince Rupert district.

An Oil of Merit. Dr. Thomas' Electric Oil is not a jumble of medicinal substances thrown together and pushed by advertising, but the result of the careful investigation of the healing qualities of certain oils as applied to the human body. It is a rare combination and it won and kept public favor from the first. A trial of it will carry conviction to any who doubt its power to repair and heal.

A feature of the Edmonton Exhibition this year will be another historical pageant, commemorating the diamond jubilee of the Dominion.

SUNDAY SCHOOL LESSON

MAY 1

PETER'S DENIAL AND REPENTANCE

Golden Text: Let him that thinketh he standeth, take heed lest he fall. 1 Cor. 10:12.

Lesson: Mark 14:53; 54, 66-71; Luke 22:61, 62.

Devotional Reading: Psalm 51:1-9.

Explanations and Comments

1. In the Palace of the High Priest, Mark 14:53, 54. The time is after the betrayal and arrest in the Garden of Gethsemane. Two painful scenes were being enacted in the palace of the high priest. Above, in the Assembly Hall, stands Jesus before the Sanhedrin (chief priests and elders and scribes), the Judge of the World is being judged by men obsessed by hatred, bent on delivering him up to death.

Below in the courtyard sits Peter. He had followed Jesus afar off, and had entered "even within, into the court of the high priest," Mark tells us. The expression is redundant, and "suggests the idea of one stealthily finding his way into the court of the palace, venturing farther and farther in, and gaining courage with each step."

The courtyard was the inner quadrangle, around which the palace was built. With the officers (doubtless the military guard who had delivered up their Prisoner and were waiting for further orders), Peter was warming himself by the fire which glowed in an open charcoal brazier. In the spring the nights are cold at Jerusalem and a fire is welcome.

"Sullen, and apprehensive at a word, Peter, the bold disciple of his Lord, Crouches above the brazier's slender flame, Flinching to hear his too familiar name. Banded with Christ's, defiant to deny, Lest one should fiercely whisper, 'Crucify!'"

The tongue, abrupt to censure or censure, Is stilled by occasions harsh distress;

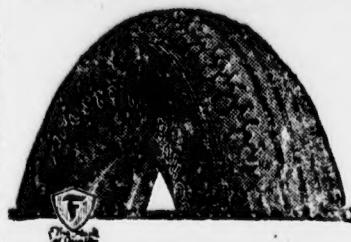

The steady eye that flamed in love or hate Shifts from wide eye to eye of them that wait,

O Peter! Canst thou thus so soon forget The grace on Hermon's Mount that hallowed thee, While yet the tears upon his cheeks were wet, From Bethany and grim Gethsemane?" — Elwood Lindsay Hains.

The indications of worms are restlessness, grinding of the teeth, pleating of the nose, extreme peevishness, often convulsions. Under these conditions one of the best remedies that can be got is Miller's Worm Powders. They will attack the worms as soon as administered and they pass away in the evacuations. The little sufferer will be immediately eased and a return of the attack will not be likely.

At the glorious feast of knowledge some people never get any farther than the soup.

GUM-DIPPING Builds Extra Miles

THE Firestone process of Gum-Dipping is one of the most important of the many Firestone contributions to more economical highway transportation.

By this process, every fiber of every cord is thoroughly saturated and insulated with rubber, minimizing friction and heat so destructive to tire life.

On the cars of hundreds of thousands of motorists, in the day-in and day-out service of the largest truck, bus and taxicab fleets, in the battle of tires on race tracks, Firestone Gum-Dipped Tires, because of their greater stamina, are delivering longer mileage with added safety and comfort.

The Firestone dealer in your locality sells and services these extra quality tires. Let him tell you of the trouble-free service that the Gum-Dipping process insures and how he can serve you better and save you money. See him to-day.

Reduction Of Capital Ship Tonnage Of Leading Fleets Since Washington Conference

In view of the United States proposals for the further limitation of naval armament the admiralty "Return of Fleets" for 1927 has appeared at an opportune moment. The return shows how drastically the capital ship tonnage of the leading fleets has been reduced since the Washington Conference. On the outbreak of war, Great Britain alone had 42 dreadnaughts ready or under construction. Today the collective dreadnaughts of the seven principal navies barely exceed 60. Only eight battle cruisers are now in existence, and on ships of this type are building. So far as dreadnaught construction is concerned the "naval holiday" is already an accomplished fact.

Taking cruisers first, the British Empire is found to have 14 building, with nine more projected for the period ending with the fiscal year of 1929. If this program is carried out the Empire will have eventually 23 cruisers of the so-called "Treaty" class. The number of similar vessels now being built in the United States, Japan, France and Italy is 18 while 12 others are projected.

In capital ships the Empire has a numerical margin of two over the United States, though this is rather discounted by the superior tonnage and later design of many of the American units. The Empire has also a definite superiority in aircraft carrier. But in destroyers and submarines Britain is far below a one-power standard, and in spite of the current building program her relative strength in both type of craft continues to decline.

A very formidable mass of submarine tonnage is now afloat and on the stocks. The six leading powers have already built or laid down 385 submarines, while 59 additional boats are contemplated.

In the present return the Admiralty has released some interesting details of the new British warships that will soon be hoisting the pennant. Of these the most important are the two battleships, Nelson and Rodney, which have hitherto been veiled in mystery. They are the first battleships to have geared turbines, designed for an output of 45,000 s.h.p., 23 knots. This is a very respectable speed for ships carrying such a ponderous weight of armor and guns. The battery of each vessel is now revealed as nine 16-in. guns, 12 6-in., six 4.7-in. anti-aircraft pieces, and 28 smaller guns, with torpedo tubes. No other warships afloat will be able to develop such a tremendous volume of fire.

Pioneer Bee Keeping

Terrace District in British Columbia Is Favorable Locality

W. S. Anderson, the pioneer bee keeper in the Terrace district, Central British Columbia, started into the industry three years ago with two hives. He now has twenty and last year had an average yield of 125 pounds per hive. He intends to make bee keeping the chief line on his farm and plans to have 100 hives. From early spring until late in fall, there are flowering plants and trees that yield a good flow of nectar and make the Terrace district a favorable locality for honey production.

American Settlers

Farmers from the Middle-Western United States are coming to Canada in droves in the next two years, according to Mark E. Gibson of Omaha, Nebraska, who came to Winnipeg to secure a tract of twenty quarter sections of Canadian Pacific prairie land for himself and twenty families of friends and relatives from Nebraska, Iowa and Missouri.

Wheat for China

In spite of the troubles in China an increased demand from the Orient for Western Canada's wheat is being recorded. George McIvor, Calgary, sales manager of the Wheat Pool, reports that heavy shipments are being made and that the indications are that these will be increased.

Canada Sliding Into Pacific

Every Year Ocean Encroaches Further Upon Western Coast Line

This continent is slowly moving into the ocean. A few months ago a world-wide experiment lasting a month, was carried out to ascertain whether the Continental areas were undergoing a sort of sliding movement.

The experiment consisted of the concrete reception and recording of Greenwich time signals sent out at pre-arranged times from a number of powerful wireless stations. These signals were received at observatories in more than a score of countries all over the world, and provided the material by which to test the longitude, or actual position, of each observatory with reference to the Greenwich meridian.

As a result of the comparison of the wireless longitudes just ascertained at Canadian stations, it is definitely stated that Canada, and probably the whole of North America, is slowly being carried westward into the Pacific, the amount of the movement averaging one meter—nearly 40 inches—annually.

Canadian Grown Seeds

Canadian-grown seeds command recognition in foreign markets by virtue of their inherent qualities of hardiness and vigour of growth. It is a fact, of which Europeans have long been aware, that, in the Northern Hemisphere, the farther north any plant can be brought to perfection the higher will be the quality and that of near descendants.

Jabots Are Modish This Season

Smartly simple is this chic one-piece frock closing at the left side front. View A has the shaped collar, cuffs on the long dart-fitted sleeves, and graceful jabots, of contrasting material. In View B the frock is fashioned of one material and the short sleeves are finished with shaped cuffs, while a trim belt fastens at the side with a buckle. No. 1569 is for misses and small women and is in sizes 16, 18 and 20 years. Size 18 (36 bust) requires 3 1/2 yards 39-inch material, or 2 1/2 yards 54-inch. View A requires 1/2 yard 39-inch additional contrasting material (cut crosswise) for the collar, cuffs and jabots. Price 20 cents the pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

Motorists Will Welcome Latest Invention

Ontario Men Perfect Slot Machine For Sale of Gasoline

After experimentation and work extending over a period of some three years, S. J. Pocock and J. K. Richardson, of St. Mary's, Ont., have perfected a gasoline vending machine, which, they believe, will revolutionize the entire present system of gasoline sale.

The new invention, for which patents have been secured in some countries and are pending in others, is a gasoline-vending machine on the "slot machine" basis, which will eliminate entirely the necessity of attendants at gasoline stations. They are operable at any time and in addition to the placing of coins in a slot for the amount of gasoline required, the consumer has but to push a button and the machine automatically pumps the gasoline purchased into the tank of the car.

In the operation of the machine, if gasoline is 30 cents per gallon, five sixths of a gallon is received for every quarter placed in the slot, and the indicator shows the amount received. Should the price of gasoline be 20 cents per gallon, the purchaser would receive a gallon and a quarter for his 25 cents, the full amount being shown on the indicator. The gas is supplied by the apparatus absolutely automatically.

The new machine is equipped electrically for operation where electrical power is available, and on a hand-operating basis for rural use. It is never closed, motorists being able to secure gasoline from the machine at any time of the day or night.

Special equipment makes the machine "fool-proof." Should anyone attempt to cheat the machine by placing a bogus coin or "slug" in the machine, the only reaction on the part of the invention will be the ringing of a loud bell and the lighting of a red light to notify the police or anyone in the vicinity of the attempt. No gas could be secured unless true coin of the realm is used.

Released at the end of August, 1926, at Hyde Park, London, a toy balloon came down near St. Paul's Cathedral 117 days later.

You may not get all that is coming to you in this world—but look out for the next.

Blind Boy Musician Radio Star

Ronald — otherwise "Ronnie" — Matthews, blind from birth and possessing a natural talent for music which has been carefully nurtured, has become a welcome performer at special broadcasts over CNRV, the Vancouver, B.C., radio station of the Canadian National Railways. "Ronnie" chose the piano as his instrument of expression and the foundation of instruction has been so carefully prepared that he has already successfully passed two examinations under the auspices of the London Academy of Music.

Seeking for a medium to adequately present the boy's talent to the world at large, G. A. Wright, broadcasting manager, evolved a feature known as "the radio train," by which an imaginary train leaves CNRV and visits homes of kiddies in British Columbia, the neighboring provinces, Yukon, Alaska and the Pacific States. Of this "train" Master "Ronnie" is "conductor," acting as announcer and occasionally offering piano forte selections. The feature has proven so successful that it has been made a permanent part of the season's programmes at CNRV.

The photographs show the "train" crew ready for the broadcast. From

Natural Resources Of The Western Provinces Are Rich Beyond The Dreams Of Avarice

Chosen Varieties of Vegetables

Necessary to Select Best Available Seeds to Ensure Good Crops

Experienced growers of garden crops have learned that there are great differences in varieties of vegetables as well as corn, melons, pumpkins, peas, tomatoes, and other crops that are grown either for home use or for the market. The names of varieties as published in seed catalogues have not always been a safe guide to the grower. An analysis of Canadian seed catalogues made by the seed branch of the Department of Agriculture, and the Canadian Seed Growers' Association, revealed no less than 2,425 variety names advertised from year to year. Many of these were found on test to be duplicates of the same variety and in other cases they were so inferior as to be unworthy of a place in the garden. For the guidance of the growers of those crops the best varieties, as proven by tests of various kinds, have been selected out and reduced to 266 in number.

The selected list has been published as a supplement to the regulations under the Seeds Act, issued as Acts, Orders and Regulations No. 11 of the Department of Agriculture at Ottawa. The list is arranged alphabetically, commencing with the artichoke, of which two varieties are named, followed by asparagus, with three varieties, beans with twenty-five articles, and ending with vegetable marrow, with four varieties, covering in all forty-four kinds of garden crops. The varieties given are arranged according to earliness of maturity, and those of outstanding merit are indicated by the letter "X." This supplement, just off the press, is being distributed by the publications branch, Department of Agriculture, Ottawa. To the extent that it is followed will gardeners reap satisfaction in realizing that they are growing the best available sorts of the different crops.

A little quick lime placed where ants frequent will drive them away.

A great deal has been heard in recent years as to the natural resources of the prairie provinces, but few people are aware of how tremendous and varied these resources are. According to the Natural Resources Intelligence Service of the Department of the Interior at Ottawa, the raw materials available in that region between the Great Lakes and the Rocky Mountains embrace almost everything for which Canada is noted and in quantities that leave no doubt as to future developments.

The wheat lands of Canada's so-called prairie provinces are vast, but the forested areas are greater. It may surprise many people to learn that Alberta has as much standing timber as Ontario, or that Saskatchewan has greater timber supplies than all the maritime provinces combined. While much of the timber is too remote from transportation to be immediately available, it is of considerable significance for the future and the figures are interesting.

The possibilities for future mineral development are likewise phenomenal. The coal reserves of Alberta and Saskatchewan constitute some of the outstanding deposits in the known world while bituminous sands, natural gas and oil formations cover a vast area. Three-fifths of Manitoba is geologically identical with the mineralized areas of Ontario and Northern Saskatchewan and already striking deposits of copper, gold and other minerals have been located and are now being developed. Saskatchewan also possesses an abundance of fine earthenware and brick clays and sodium sulphate beds, while Manitoba has important building stone and gypsum supplies.

The coal reserves in southern Alberta and Saskatchewan form a permanent guarantee of power for future commercial developments while in the Rockies, in Eastern Manitoba and in all of the northern rivers tremendous resources in natural water powers are awaiting development. The commercial possibilities of the known sites in the three provinces are about eight million horse power, Manitoba having almost six millions and the other two over a million each.

The fame of this country for its game and fur-bearers is too well known through history of the Hudson Bay and other trading companies to require explanation. The yield of furs continues apparently unabated and with the establishment of fur farms it would appear as if this great source of revenue would be a permanent one.

Other national resources which might be mentioned are the bracing healthful climate, the vast navigable waterways and the magnificent scenery which varies from the seas of golden grain to snow-capped mountain ranges and from forested valleys to Arctic pastures.

Permanent Timber Supply

Three-eighths of Land Area of Canada is Suitable Only for Trees

It is estimated by the Forest Service of the Department of the Interior that the only economic use for three-eighths of the land area of Canada lies in the growing of trees. This vast area of territory, while incapable of successful agricultural production is, if permanently dedicated, protected, and managed, suited to the production of a timber crop which would guarantee for all time the supply of raw material for Canada's wood-using industries.

Pea Canning Factory

Something new in exhibitions has been "sprung" by Magrath, Alberta, namely a "Pea Exhibition" as a preliminary to the establishment of a pea canning factory. The show will be held in connection with the Magrath Exhibition and Old Boys' Home Coming, set for August 4th and 5th.

Customer: "This overcoat's too short."

Clerk: "It's all right—it comes just above the knee."

Customer: "Who do you think I am? A woman?"

WORLD HAPPENINGS
BRIEFLY TOLD

Two fine autographed engravings of the King and Queen will occupy a place of honor in the new Canadian legation.

El Salto observatory, near San Pedro, announces that several volcanoes in Southern Chile have become active.

A Royal Air Force bombing aero plane crashed at East Church, Kent, Eng., and its four occupants were burned to death.

Quebec provincial general elections will be held Monday, May 30. Nominations will take place May 9. These dates were announced following a meeting of the cabinet.

A fossil of unusual interest has been found in the workings of No. 2 mine at Glace Bay, Nova Scotia. The petrified form had the appearance of a crocodile or alligator about two feet long and was discovered embedded in the submerging area about two miles under the Atlantic.

For Aches, Pains,
The Safe Home Remedy
NERVILINE

When sudden sickness comes, when the children come in with colds, their little cheeks and throats sore from coughing, quick results always follow a vigorous rubbing with good old Nerviline. It's a trumpet call, clarion, Nerviline is a wonderful friend; it brings ease and comfort so quickly. For young and old, to overcome the minor fits that constantly arise in the home, nothing compares with "Nerviline," 35 cents at all dealers.

Jupiter, measuring 86,500 miles in diameter, is the largest planet; Mercury, 3,600 miles in diameter, is the smallest.

Is More Than Pleased
With Results He GotManitoba Man Speaks Highly of
Dodd's Kidney Pills

Mr. W. G. Kemble Used Dodd's Kidney Pills for Weak Kidneys and Found Them Very Beneficial.

Minnedosa, Man. (Special) — The following is one of the many letters of praise which we are continually receiving. It comes from Mr. W. G. Kemble, of Water Street. He writes: "Getting up in the mornings I used to have bad pains in my kidneys. I was told to try Dodd's Kidney Pills and must say I have to thank the person many times for telling me about Dodd's Kidney Pills for they brought me great relief. I would not be without them."

That Mr. Kemble's trouble came from the kidneys is evidenced by the relief he got from Dodd's Kidney Pills. When the kidneys become clogged or out of order, the circulation becomes sluggish, the impurities are not strained out of the blood and the result is weariness and lack of energy all over the body. This condition is not only disagreeable but dangerous as well. The impurities in the blood are the seeds of disease.

Guard against these diseases and get back your accustomed energy by using Dodd's Kidney Pills.

One of New York's newest sky scrapers burns enough coal in a day to heat four average-sized homes all winter.

Was So Nervous
The Least Noise
Made Her Jump

Mrs. W. H. Yates, Ashland, Man., writes: "I was bothered very much with my heart and nerves, and the least noise would make me jump and almost stop my heart beating."

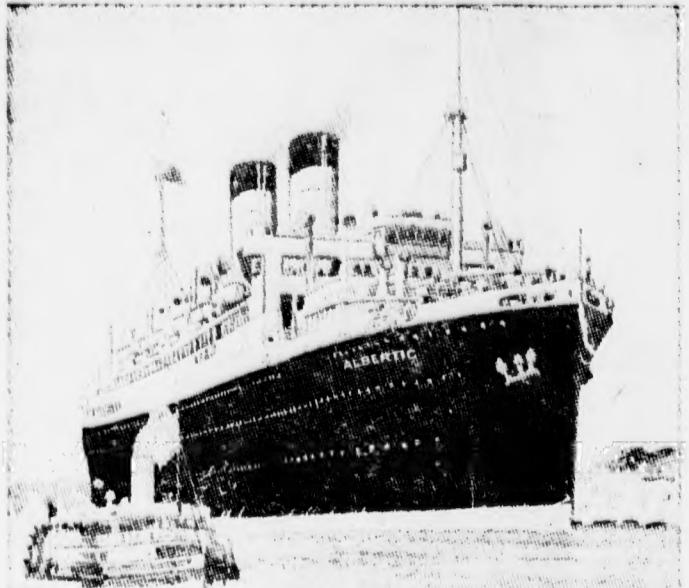

I told my mother about it one day, and she said that she had been bothered the same way and told me to get a box of

When I had taken the one box I felt quite a lot better and by the time I had taken three boxes I got relief."

Price 50c, a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

White Star Liner "Albertic" 19,000 Tons, Largest Ever to Sail From Montreal

Another page in steamship history is being written this season when the Albertic, of the White Star Line Canadian Service (shown above), docks at Montreal at the end of April, as this will be the biggest steamer ever to sail up the river St. Lawrence as far as Montreal.

Previous to this season the Doric and Regia sister ships in the White Star Line Canadian Service, held the record for being the largest steamers to enter the port of Montreal. They are 16,500 tons each, and the Albertic is 19,000 tons, and, therefore, 2,500 larger than the Doric and Regia.

The Albertic is an R.M.S.P. steamer. She was formerly known as the "O" liner, one of the world famous "O" liners. She will join the St. Lawrence fleet with a reputation equal to her size and, in addition to being the biggest steamer ever to sail up the St. Lawrence to Montreal, will be one of the most luxurious to make Montreal her terminal.

The Albertic will be used on the direct service to Liverpool eastbound while on the westbound route she will call at Queenstown. She will leave Liverpool on her first westbound voyage under the new name on April 22 and will steam out of Montreal on her first eastbound voyage on May 7.

Built in 1923, the Albertic is 587 feet long, 72 feet wide and 37.6 feet deep and she has seven decks. "A" is the observation deck; "B" is the boat deck on which are located the smoking room, the lounge, the reading

IS NOT POSSIBLE NOW TO EQUALIZE FREIGHT RATES

Ottawa.—After sittings extending over two years and occupying 105 days, the general freight rates inquiry by the Board of Railway Commissioners is drawing to a close. The inquiry is expected to be completed this week.

Isaac Pitblado, K.C., the last counsel to be heard for the provinces or others opposing rates increases, concluded his address and W. N. Tilley, K.C., Toronto, at once opened the case for the railways. He remarked on the changes which had occurred since the first important argument on freight rates was before the board. In 1911, important changes had occurred in transportation conditions. In those days there was only one transcontinental railway spanning Canada. So, too, the scope of this inquiry was far more sweeping and comprehensive than any previous investigation had been and the judgment of the board, when rendered, would be of the greatest importance to all concerned—to the railway, the provinces and the nation as a whole.

Mr. Pitblado dealt at some length with the matter of equalization. He declared equalization of rates was an impossibility today. Any attempt to adjust the present rates structures today on the principle of an equal rate for equal mileage in every part of the country would mean chaos and disaster to the commerce of the country.

It was far more necessary, he declared, to set about an adjustment which would enable the natural resources of the country, the fruits, lumber, canning products, fish, etc., to move from the point of production to the most profitable market and so facilitate the development of that market, both domestic and foreign, than it was to legislate so that the trader in Montreal could serve his local market, of say 150 miles radius, at the same cost of transportation as the trader in Winnipeg could serve his.

Equalization of rates, said Mr. Pitblado, was no new idea. An attempt had been made in 1873 to put equalization legislation through the Canadian Parliament but, without success and a similar attempt in the Imperial Parliament the previous year had met a like fate. Today it was no more practicable than it was half a century ago.

Russian Trade

Improvement in Agriculture and Industries is Reported

Montreal.—A big British concern engaged in shipbuilding has approached the chief concession committee of the Union of Soviet Socialist Republics offering \$100,000,000 long term credits to build mercantile ships for the Soviet, according to announcement made here by the trade delegation of the Union. The offer, it was stated, was now under consideration.

During the four months of the current fiscal year, beginning October, 1926, export trade of the U.S.S.R. reached \$135,541,000, leaving a favorable trade balance of nearly \$48,000,000. Trading was carried on principally with eastern countries. The Soviet representatives declared the population of Russia was now 141,895,000 and statistics showed a general improvement in agriculture and industries since the 1921 period of depression.

Arctic Flier is Safe

New York.—The North American Newspaper Alliance has been informed that Lieut. George H. Wilkins, Arctic flier, who has been missing since March 29, when he landed on Point Barrow, Alaska, for the unexplored regions to the north, has made a safe return to Beechey point.

Negro's Skin Turns White

Glasgow, Ky.—Eugene Clark, negro, whose skin began to change color a few years ago, is dead at his home near Sulphur Well. At the time of his death Clark's skin had virtually been transformed from black to white.

W. N. U. 1678

Well Known Horseman Killed

Captain Lidington, Victim of Horne Payne Wreck, Was Bringing Shipment of Horses West

Ottawa.—Captain J. Lidington, who was killed in the train wreck at Horne Payne, was an internationally known horseman. His father, Major Lidington, and himself were conducting a shipment of thoroughbreds from England and had been in Ottawa for several days where some of the horses were disposed of. Major Lidington took ill while here and is in the civil hospital.

The son on Easter Monday, proceeded, assisted by helpers Garnett Ball, H. Endersby, and Patrick Broderick, all believed to have come from Thame, England, to load the remainder of the horses some 35, which were being taken to Winnipeg and Vancouver where they were to be sold.

Six of the horses in the shipment were sold while the party was here to Captain Jenkins, of Toronto. Joseph Gleeson, of Ottawa, bought one, and eight were sold in New York. All the remainder of the shipment, except two, it is believed, were killed in the wreck.

The horses were believed to have all won races in the old country and was a valuable collection. Major Lidington and his son had planned on returning to England for another shipment in August.

Government Refuses To Act

Peking Officials Reject Soviet Demands in Connection With Raid

Paris.—Rejection by the Peking Government of the demands of the Russian Soviet Government in connection with the raid on the Soviet buildings in the embassy compound at Peking, is reported in a despatch to the Indo-Pacific Agency. The raid on orders of the Northern Chinese authorities was carried out on April 6.

Two days after the raid the Soviet Government ordered all the embassy officials to leave and in a note delivered to the Chinese charge d'affaires at Moscow, made a series of demands. These included immediate evacuation of police from the compound, the release of all those arrested in the raid, and the return of all documents seized, together with all money, personal property, household goods and books taken by the police.

British Peer Joins Laborites

Sir Robert Peel Has Gone Over to Labor Party

London.—Another member of the British nobility is to join the Labor Party. Sir Robert Peel, baronet, grandson of the statesman, "Bobbie" Peel, from whom the London policemen derived the nickname which has clung to them since early in the Victorian period, has announced his intention of participating in politics on the side of Labor. The young peer already has under consideration proposals to stand for Parliament in the Tamworth division of South Staffordshire, his home, which was the division represented by his grandfather when he entered politics.

While prime minister, the older Peel founded the modern police force, and immediately the police men became known as "Bobbies," and also as "Peelers," but the latter designation lasted only for a short time.

Federalship Seizure Illegal

Judge Hands Down Decision in California Court

San Francisco Cal.—Handing down a decision that the seizure last March of the steamship Federalship with its million-dollar cargo of liquor and arrest of the captain and 19 members of the crew, 300 miles off the California coast, was illegal, Federal Judge Bourquin ruled that the seizure was in violation of treaty relationships between nations.

Captain S. S. Stone, skipper of the Federalship, and 19 members of his crew, were released from jail following the judgment.

Supports New Voting Bill

London.—Lloyd George has promised his support to the Government's measure giving women of 21 years of age the franchise. The measure is to be introduced in the House of Commons shortly.

FORMER LABOR PRIME MINISTER AT WASHINGTON

Washington.—A sentimental tray over down old familiar roads was how right Hon. J. Ramsay MacDonald, the old, former Labor Prime Minister of Great Britain, described himself to the Canadian Press correspondent here, when he arrived for a brief visit to Sir Ernest Howard, the British ambassador.

Mr. MacDonald stated that his visit had no political significance. He said he was unable to reach Canada on this trip as pressure of business compelled him to sail for home city soon.

Asked if British Labor had seriously resented the deportation law of 1919 in Canada, Mr. MacDonald said he had never been seriously alarmed that the sedition laws of the Dominion would be unfairly used against Britishers there.

In the opinion of the former Prime Minister, the Baldwin Government had "floundered," and the trend of political opinion was in favor of the return to a Labor Government in Great Britain on his analysis of the vote in recent by-elections in Leith and Southwark.

Mr. MacDonald predicted a recurrence of the coal miners' strike unless wrongs of the miners were redressed soon. He did not believe, however, that the general strike weapon would be used next time, remarking that many who favored the general strike weapon had young themselves unwilling to be "generally struck."

Mr. MacDonald was a luncheon guest at the British embassy and was entertained at dinner by the executive council of the American Federation of Labor.

Another Royal Exhibit

Belgian Queen Announces Entry for Poultry Congress

Ottawa.—Still another member of a European royal family is to be an exhibitor at the world's poultry congress to be held in Ottawa from July 27 to August 4. Congress headquarters received word from Brussels that included in the Belgian national live bird exhibit would be a number of fowl the property of Her Majesty Queen Elizabeth of Belgium. The Belgian exhibit will consist of fowl, pigeons and rabbits.

Other royal exhibitors already announced are His Majesty King George, H.R.H. the Prince of Wales and H.R.H. the Prince of Asturias, heir to the Spanish throne.

New Fashions from Japan

These young ladies who are travelling on the world cruise of the Canadian Pacific liner Empress of Scotland, were so struck by the beautiful garments they saw when their tour came round to Japan that they went and purchased one of the most outstanding, namely, the haori. This, as can be seen from the engraving, is a very beautiful sort of shawl whose folds can be arranged according to taste in almost any shape desired. They are very attractively figured in floral designs and from the general appearance of them, it would not be surprising if these young ladies became the advance guard of a new fashion originating from Japan. Anyway, we make a present of the idea (although not of the garment) to our readers.

Not Getting Fair Deal

Rural Schools Entitled to Experienced Teachers Opinion of Dr. Kerby

Edmonton.—"Rural school children are not getting a fair deal today," declared Dr. George W. Kerby, principal of Mount Royal College, Calgary, in an address before the convention of the Alberta Educational Association here. He deplored the tendency to train teachers for banding city schools, the sending of junior and often immature teachers to country schools to gain experience and a lack of sympathy for rural schools.

"The average rural school trustee looks at the country school as a little building where a little teacher teaches little things to little children for a little while at a little salary," declared Dr. Kerby. "There is need to consider the whole question of rural education, which is greater than the wheat pool or immigration problems."

Canada's Jubilee

Sir Arthur Currie Would Like to See Preparations Hurried Up

Montreal.—The apathy with which, he said, Canadians were approaching the jubilee date of Confederation was deplored by Sir Arthur Currie, commander-in-chief of the Canadian troops during the war and principal of McGill University. He spoke before the Electrical Club of Montreal.

"Jubilee committees have been appointed," said Sir Arthur. "but I would like to see some sign of activity upon the part of those forming those committees. The birthday of Confederation is not far off. It is high time something were done. I know that on the first of July those great bells at Ottawa will peal out but they will not reach the general public of Canada."

Hopes to Retain MacBrien's Services

Ottawa.—The hope that the services of Major-General J. H. MacBrien, chief of staff of the Department of National Defence, might be retained was expressed by Premier King, addressing the officers of the Governor-General's Foot Guards at a dinner. General MacBrien, some time ago tendered his resignation. Premier King paid high tribute to General MacBrien.

Expects to Win Wager

Toronto.—W. H. Chapman, aged 77, who has walked nearly 10,000 miles since July, 1923, to win, he says, a \$2,000 wager, passed through this city April 19. He has yet to cross the continent to comply with the rules of the wager. He started from Milwaukee and he is now going to Cochrane, and expected to be in Vancouver and complete the round trip some time in the summer.

CIVILIAN WAR SUFFERERS MUST WAIT FOR A YEAR

Ottawa.—There will be no payments this year to the civilian sufferers from the great war.

Reparations Commissioner Fried has not yet completed his work.

It is understood that the secretary of state has been for some time pressing Mr. Fried to hurry his reports, seven being still unfinished, but has been unable to speed things up. The result is that many impoverished citizens of Canada must suffer for another year without the compensation payments which the Dominion is willing to pay.

These war sufferers have no legal claim, but the principle has been generally accepted that compassionate payments will be made out of Canada's share of the reparations under the Dawes plan.

There is no legislation authorizing this and whatever payment is made must be specifically voted by parliament. An attempt was made two years ago to get parliament to vote part of the money, but this was rejected. Parliament wanted the full report.

With parliament prorogued and the commissioner's final report missing, there was no vote passed. The secretary of state admits that some of the claimants are in a destitute condition, yet nothing can be done for them.

Canada has received \$1,000,517 in payments on reparation account, and still has \$3,789,639 due from Great Britain. The latter sum, however, is dependent on the settlement of other accounts between Britain and Canada. If this sum is paid there will be \$7,798,917 available on reparations account, together with any Dawes instalments paid in the meantime.

The policy of the government with reference to this money will not be decided until Commissioner Fried makes his report.

The British parliament appropriated \$27,500,000 for distribution to claimants who had suffered loss. Canadians domiciled in Britain have thus been compensated, but Canadians domiciled at home must wait nearly nine years after the war is over.

Announces Anaemia Cure

Ready For Public Use Very Soon Says Rochester Doctor

Rochester, N.Y.—Man has proclaimed a new victory over disease with the announcement that within a few weeks there will be ready for public use a cure for anaemia that has been successful in 99 out of 100 cases.

The announcement was made by Dr. George R. Whipple, dean of the medical schools of the University of Rochester, after ten years of experiments in which he has been assisted by Mrs. Frieda S. Robbins, physiologist at the school. For the past two years Dr. George R. Minot and Dr. Edwin J. Cohn, of Harvard medical school, have collaborated with them.

The cure is a serum discovered during a decade of experimenting on anemic dogs and humans. It is an extract of beef liver but has not yet been sufficiently purified to make chemical identification or naming possible. It will be distributed through selected physicians in the various cities as was done with insulin.

Only Two Dry Provinces

Government Liquor Control Goes Effect in New Brunswick

Fredericton, N.B.—The province of New Brunswick formally associated itself with the other six provinces of Canada which now have Government control liquor laws when Lieutenant-Governor Todd gave Royal assent to the measure which passed the Legislature and which gives this province an act similar in many respects to that which will shortly come into operation in Ontario.

This leaves only Nova Scotia and Prince Edward Island with temperance laws based on prohibition of the sale of alcohol.

TO MEMBERS OF THE WHEAT POOL

Once a year Wheat Pool members are called to choose the men they want to administer the affairs of the Pool for the coming year. To successfully direct a business of this magnitude requires that men of outstanding merit be selected. They must be chosen by the Pool members themselves. It is your job. It is both a privilege and a duty. Don't neglect it!

The system of electing Delegates was changed at our last Annual Meeting. Instead of sending each member a ballot card we are now required to send him a NOMINATING PAPER. You will find this on the back page of the membership list. Full instructions for using it will be found on the inside front cover and on the back page. Note that the nominating of any member must be SIGNED BY TEN MEMBERS and the Nominee must sign in the place provided on the Nominating Paper. All nominations must be returned to Head Office not later than Wednesday, June 15th next.

The first thing is to see that the member you want as your Delegate is duly nominated, then get your Nomination Paper into Head Office before June 15th, then watch for your ballot paper about the first of July. When it reaches you, use it promptly, being careful to follow the instructions which will accompany it.

What About a
Baseball Team?

Is Carbon to have a baseball team this year? If so, isn't it about time a meeting was called to discuss the matter? Some of the citizens are of the opinion that there is no material for a team here, but there are new players growing up every year. We can't let the summer pass as the winter did without sport of any kind; and then a baseball team is an asset to any town both as an entertainment and from a business point of view. Don't let the matter slip, friends. Something ought to be done to stir up a little interest in our town from the outside.

The Orange War is on. We see a sign in one of the local store windows which reads: "Oranges, 54 dozen for \$9.99. Only 108 dozen to a customer. Ask for prices on car load lots."

How much is a car load worth, Charlie?

APPLE SAUCE

Smithy: I think I will marry a pretty girl and a good cook.

Bill: You can't, that's bigamy.

"The doctor will see you inside" said the nurse to the patient as she helped him on the operating table.

The dear girl waltzed up to Mac and asked for a pound of wax.

"Wax, Miss?" echoed A. F. M.

"Yes," answered the dear girl, "wax for polishing the floor."

"We have only sealing wax," replied Mac.

"Oh, shucks!" said the maiden, "that's no good at all. We are having a dance and I want to wax the floor, not the ceiling."

"I had the last word in an argument with my wife," said a Carbon man, "but I was two blocks away from the house before I got to say it."

Suspicious wife: Where have you been all the evening?

Husband: I've been talking over business with Ray C.

Wife: And I suppose that's Frisco flour sprinkled all over your coat?

Petite Customer: "May I see your very thinnest in silk hosiery?"

Clerk: I'm sorry, sir, but she is off for the afternoon.

Mother (to son across her knee): "I'll teach you to tie sauce pans to dog's tails."

Son: But mother, it isn't our dog.

Mother: No, I know it isn't our dog, but it's my sauce pan.

"They say brunettes have a sweater disposition than blondes."

"Well, my wife has been both and I can't notice any difference."

"I would like to try on that new pink dress in the window," said a young woman the other day.

"Sorry," replied the obliging young Scotchman, "but that's a lamp shade."

BINDER TWINE

The influence of this Farmers' Company in the distribution and sale of twine has for ten years been for of immense benefit to the farmers of Western Canada. Place your provisional order now with the U. G. G. Agent for your 1927 requirements.

Embarrassing Position Experienced By Bronx Lady

Miss Jeanne Glusberg, Bronx, N. Y., writes: "I had become accustomed to arising each day with a heavy head, dizzy and bad taste in my mouth. My bowels were frequently clogged and constipated. One day I became so sick to my stomach I had to leave an important job and go home. A friend advised me to take CARTER'S LITTLE LIVER PILLS. I feel greatly relieved since using them and whenever my stomach and head goes bad again I'll certainly know what to do."

CARTER'S LITTLE LIVER PILLS are sugar coated, small, easy to swallow, purely vegetable, and relieve the bowels free from pain. They tone the system as they are purely vegetable and do not contain Mercury, Calomel or other poisonous drugs.

CARTER'S LITTLE LIVER PILLS, 25c. and 75c. red packages.

Strange Romantic Love Adventures of the Flapper you know

Joanna

by H. L. GATES

Copyright 1925 by H. L. GATES

Published by arrangement with First National Pictures, Inc.

CHAPTER XXXIII Continued

"You mean," she said, "that I may marry you, but to some one else, and invite him to love me? That if I do that it will be—quite all right, with you, my husband. And that if I do all this, why, I may keep my money?"

"Just that!" he answered shortly, "your money, and your love!"

When she did not speak at once, he went on with a merciless sneer.

"The man you are thinking of will not hesitate, I imagine, to take advantage of such an arrangement. He has shown himself to be amenable to any kind of conditions. While we are here, tonight, he is kneeling before satin slippers that were never worn by your feet. You have done with him as you would like to have done only because he was afraid to bind himself to you. Free him from that fear, and offer him another way; and I fancy, he will not be so elusive. Perhaps I might add that by giving me yourself, as my wife, mind you, you will not only retain your money, but you will solve the problem of retaining him!"

She stared into his eyes for a long time, then dropped into the chair. "Would you mind," she asked, "of doing me something to drink? My throat is parched."

Then she buried her head in her arms.

Without a word Brandon went to the door and signalled the waiter, who had remained on the balcony in the vicinity of the door. The man hurried away. Brandon returned to the chair and stood by the side of the limp form of the girl. He touched

her body relentlessly. She put up her hand in mute appeal for him to be silent. He hesitated, and then, with a shrug of his shoulders went to the fireplace.

When the waiter brought in the champagne with glasses arranged on the tray, Brandon signed him to deposit it on the table, and waved him out of the room. Joanna stirred and lifted herself, by bracing against the table, to her feet.

When she looked across at Brandon the quizzed smile that so many people had never understood hovered about her lips.

After a little while Joanna opened her fingers and the broken wreck of a champagne bottle fell.

Brandon went at once to the table and reached for the champagne to open it.

Then he sank, noiselessly, to the floor.

Joanna stood over him and watched the crimson trickle from his forehead, the broken, jagged neck of the champagne bottle still clutched in the deadly grip of her hand.

CHAPTER XXXIV

The Flight

Down stairs they danced; danced and shouted witty, taunting, mocking things at each other. Long, twisting serpentine, thrown from dancer to dancer in carnival abandon, spread a rippling blanket of tawdry colors over the club boudoir. And Joanna gazed down upon the prostrate form that lay at her feet, the crimson still trickling in ghastly persistence from the white forehead.

After a little while she opened her fingers and the broken wreck of the champagne bottle fell to the carpet. She closed her eyes and lifted her face, from which all the color had fled.

This was a pose Joanna had never struck before. It was one she'd never practiced. She'd never thought of anything quite like it. It was as if she wasn't posing at all just holding her face toward heaven with her eyes closed as if afraid to

contemplate the message that might be written there.

Then she went onto the balcony and closed the door behind her. She nodded to the waiter who stood nearby, flashing him an assuring smile that seemed to tell him she was enjoying herself tremendously and would be coming back in a moment.

Downstairs she skirted the dance floor and threaded her way among the tables to foyer. The red coated attendant bowed to her. "It is still black outside, Mademoiselle," he said. "No one could get down, now it will lift by morning though."

"Just the same," she returned, "please to call for Mr. Brandon's car. I think he will have one parked in the yard."

The flunkie would have protested but Joanna silenced him with an arrogant gesture. Muttering, he went onto the veranda, Joanna following him, and called to a knot of chauffeurs who stood in the misty glare of a powerful headlight discussing, no doubt, the affairs of their masters. None of these responded. He went then into the yard, and among the parked cars he found the hunched shape of Antoine and spoke to him. Antoine, wondering, agreed that Monsieur Brandon was his patron.

"Very well then," the attendant commanded, "be so good as to bring your car to the entrance. Your master seems to be remaining. Mademoiselle, his young lady, apparently brings his order for you to take him down the mountain. You can't make it, of course, but that is his and her affair, not mine."

Antoine growled his doubts of such a situation. They were cut short by Joanna herself, who appeared suddenly at the side of the car in the wake of the doorman. "I do not desire to be taken down the mountain," she declared. "Your master, however, requires you inside at once. I am to await your return, with him perhaps, in the car. Please to go at once."

Both Antoine and the servant were puzzled, but Joanna brooked no tardiness in obeying her commands. To Antoine she repeated: "I bring your master's orders. Attend to them!" The attendant here will show you the way to Mr. Brandon. He awaits you in the private room, on the balcony. Still dubious about this sudden humor to expose him to possible identification by the maskers in the club house Antoine descended from the car and stumbled along behind the other man. Joanna climbed into the seat he had vacated. When their two forms disappeared across the veranda she felt with her toe for the starter, found it, kicked it, and in another moment was guiding the gray car toward the gate. When she was safely through the gate she disappeared in the mist. The curious chauffeurs who had watched her manœuvre heard the echo of her horn until it, too, was absorbed by the thick, opaque atmosphere. "That's the one they call the Golden Girl," one of the drivers explained to his companion. "Pity, isn't it, to see a young girl like her clear gone to the devil?"

Antoine, fed at his request through

Bladder Weakness Remedied by Gin Pills

Buffalo man recommends them for kidney and bladder trouble

Gin Pills bring you quick relief from urinary and bladder troubles. They soothe the kidneys and bladder and get rid of that burning sensation; the frequent desire to urinate is overcome; brick dust deposits disappear. You can again enjoy comfort by day and sound sleep by night. Thousands of people are relieved of bladder and kidney troubles every year. Read what George F. Doettl, Buffalo, N.Y., says of Gin Pills:

"I suffered from bladder weakness and frequent urination. I had tried other kidney remedies, but got no relief. Advised to take Gin Pills, I did so, and after taking half a box noticed a marked improvement. I can sincerely recommend these pills to anyone suffering from kidney and bladder derangement."

If you have headaches, backache, uric acid, pain in the kidneys, dizziness, frequent urination or swollen joints, Gin Pills will correct them. 50c a box at all druggists. The National Drug & Chemical Co. of Canada, Limited, Toronto, Canada.

kitchens and sculleries, was brought to the closed door on the balcony. The guardian waiter opened the door for him. Brandon's eyelids were beginning to quiver. The excited waiter would have lunged out of the room with a cry of alarm but Antoine clutched him by the throat and smothered the sounds in it. "quietly, my friend, quietly," he grumbled. "There's something to hide here, not to advertise. Bring the proprietor or his assistant—quietly."

At the end of an hour's patient ministrations behind the locked door Brandon, stretched on a divan, held his eyes open and gazed round him. His first feeble uttered question was:

"Where's the girl? The Mademoiselle?"

The club house director would have silenced Antoine's complaint that she had stolen his car, but the Monégasque would not be restrained. Through the handings mated about Brandon's head something of a fleeing smile escaped. "It is just as well," he murmured. "No cheer, my good Antoine! I failed, but I fancy you and your men will be paid double for your little practice tonight."

"But she will give the alarm below," the other exclaimed. "Before morning! After dawn it would be in tile; we contemplated an alarm by dawn when the men get down. But not before! You did not keep her here till dawn, do you agreed?"

(To Be Continued.)

Weight of British Debt

Amount Owing to States Placed at 6,700 Tons of Gold

Great Britain's debt to the United States would make a lump of gold weighing 6,700 tons. Lieut. Col. L. S. Abery, secretary for the Dominions, estimated in a speech at the annual dinner of the Mining and Metallurgy Institution, London.

"Therefore," he added, "our debt to America is more one for the proprietor and mining engineer than for the financier."

The British debt to the United States was funded in 1923 at \$1,600,000,000.

THAT BABY OF YOURS

Keep Him Well With the Aid of Baby's Own Tablets

No matter how strong and rosy your child may be he requires a laxative sometimes so that the stomach may be kept sweet and the system clean.

Formerly the laxative medicines given to children were disagreeable ones—castor oil, senna tea, powders and so on. But now Baby's Own Tablets, easily administered and pleasant to take, have superseded these. The children like Baby's Own Tablets.

Not only as a laxative but in many other ways these Tablets are an ideal remedy for little ones. They quickly reduce feverishness, relieve indigestion, colic and vomiting, prevent constipation, check diarrhea, allay teething pains and promote healthful, natural sleep.

You can get Baby's Own Tablets at any dealer in medicine or at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

222nd Battalion Re-Union

Association to be Formed of Former Members of This Unit

At a Reunion Dinner of the 222nd Battalion held in Winnipeg recently, it was decided to form an Association for the purpose of having an annual Reunion, and keeping former members of the unit in touch with each other. Full particulars of the association can be obtained by communicating with Lieut. Col. Jas. Lightfoot, of Lightfoot's Transfer Co., Winnipeg, or Mr. Jas. Herzen, no. 10 Hydro Office, King St., Winnipeg. It is hoped to make this association a real success and all former members of the battalion are urged to send in their names and addresses.

No need to suffer with corns, or to run the risk of paring them. Remove them surely and painlessly with Holloway's Corn Remover.

Many Radio Phone Calls

The Postmaster-General announced that to the end of March the number of trans-Atlantic radio telephone calls passing between England and America was 257 westward and 398 eastward.

Little Helps For This Week

That all may learn and all may be comforted. 1 Cor. xiv, 34.

When God gives to us the clearest sight,
He does not touch our eyes with love, but sorrow.

John Boyle O'Reilly

We must suffer in ourselves before we can truly love others, and we must suffer greatly before we can love widely. Why it is so we may not be able to tell, unless it be that only thus do we gain a thorough knowledge of ourselves. There is in the heart of man a secret chamber where God has put all humanity and Himself; touch the door with the hand of suffering and it lies open, and man finds himself one with all others, and God Himself in the midst of them.

Theodore T. Munger

Many mothers can testify to the virtue of Mother Graves' Worm Exterminator, because they know from experience how useful it is.

Speaking of fruit, the first apple caused a lot of trouble for the first pair.

Minard's Liniment soothes tired feet.

In 1868 the first regularly equipped government fish hatchery on this continent was erected by the Dominion of Canada at Newcastle, Ontario.

What do you get for the price you pay?

GARRETT'S GARAGE

CHEVROLET DEALER, CARBON, ALTA.

VALUE is not a matter of price alone. It is simply what you get for the price you pay. Chevrolet is low in price—but not at the expense of quality. It is economical—because it is not cheaply built. It is supreme in value because it is one of the things you want for the price you pay.

First and always, quality counts with Chevrolet.

There is quality in the distinctive Fisher bodies; in the long, low lines; in the rich, lustrous Duco colors; in the smooth, powerful valve-in-head engine; in the scores of refinements, such as air cleaner, oil filter, gas strainer; in the luxury of its appointments and

upholstery; in the long, resilient springs; in the easy, three-speed transmission.

The Most Beautiful Chevrolet in Chevrolet History is now selling at new and lower prices—the lowest for which Chevrolet has ever been sold in Canada.
